

Dear Rick,

Karen and I are now living in our new home for 8 years – I say new home because it still looks like it did when we moved in.

You are the best building contractor I have ever come across. You put conveniences in our home that neither the architect nor we had ever thought of.

Aside from the construction, you have been so accommodating in the years gone by for little things that “pop up” and have taken care of them immediately.

Rick, you probably don't remember the first home you built for us in Boca West in 1991. We lived there until the new home was finished in 2000 – all of the above applies to that home also.

Thank you!

Very truly yours,

Donald O
